Typical "refilled" cartridges have a questionable quality, may damage your equipment & have hidden cost in form of a high return rate & lost customers.

Import distributors buy sight unseen from manufacturers competing on price, cutting corners, using untested components, resulting in varying quality.

The original products have set the standard of quality and yield. However, they are your most expensive option.

DOCUWISE bends the value curve offering OEM quality products, a documented 99.2% performance ratio, 1 year warranty & pricing 60% below the OEM price

- ◆ 99.2% Performance Ratio
